

Shredding Stops Here!

Introducing Mylar[®] Harvest Fresh SR Proprietary Film Technology
Superior shred resistance with high burst strength

Flat Heat Seal Curves

- Consistent heat seal strengths over a over broad range of temperatures
- Prevents weak and open seals during distribution
- Reduces shredding – allow clean peel every time
- Trusted performance across all your machines

Low Seal Initiation Temperatures

- Short dwell time 0.5 sec or less = improved manufacturing efficiency

Burst Strength: 10-15 in Hg

Plus All Other Properties You have Come to Value in MYLAR[®]

- Anti-fog, optical clarity, printable
- Excellent hot tack
- Skeleton wind, lay flat, easy to die cut
